This invoice may be already paid. Irrespective of payments made in advance, we are obligated to send out an invoice for rendered services. If you have already paid in advance, please regard the invoice as a confirmation, not as a payment reminder. This does not apply, of course, if you have been notified about non-payment - in that case, please contact us immediately.

If you are unsure whether you have already paid this invoice or not, please log in to your [Customer Control Panel](#) and go to "Billing". If your balance is positive and there are no warnings, there is no need for an immediate payment. Please still check all information given on this page, we always recommend to recharge your account with the amount suggested in the "Recharge your account" section.

Last but not least, we invite you to switch to automated payments using Credit Cards or PayPal. This way you do not need to remember to top up the account at the end of your billing cycle and there is no risk of suspension or data loss because of a delayed payment. You can turn on automated payments in your [Customer Control Panel](#) in the section "Payment Method".

It is your responsibility to examine whether you are liable to pay VAT or similar tax according to your national legislation.

Questions? Check our [Billing FAQ](#)
